## WESTERN CANADA

[Live Stock Report, Chicago.]

During the last ten years the Canadian North-West outside of Manitoba has been attracting wide attention as a stock and grain region. To one who has travelled over this territory and investigated the soil, the agricultural and ranching propositions, or, in fact, almost any story, will be believed. As a stock country it has many points of interest. In the first place the land is a rolling prairie covered in a few instances with small trees and brush, but on the whole resembles the prairies of Western Iowa, eastern Nebraska, eastern Kansas, and southern South Dakota. It is covered with various grasses, chief of which is what the Canadian call buffalo grass. It resembles the buffalo grass of the States, but grows more freely because there is more moisture in southern Canada than in the United States. It, however, cures on the stem, just like our buffalo grass, and horses, cattle and sheep find it the very best of feed. It supports them during the summer and early autumn and then dries up on the ground and keeps them throughout the winter. In the southern part of Canada no hay is ever needed to carry live stock through; not only can they live, but cattle are fattened without any grain. They are of sufficiently high quality to send direct to British markets. They are the very best cattle that can be produced, while sheep and horses do equally well. It is an ideal country for all kinds of live stock.

It is probably unequaled as a place to grow wheat. Beginning with Manitoba and going clear across to the Rocky Mountains, wheat is grown practically everywhere. In the eastern half and in the northern portion spring wheat prevails, the Red Fife being the dominant variety. Very few other kinds are grown. In some sections the Club Wheat is produced, but this does not seem to be as satisfactory as the Fife. In the Edmonton region and south clear down to the line great quantities of winter wheat are grown. The variety most commonly used is Turkey Red, the seed coming originally from Kansas. In Kansas this is a soft variety but when transferred to Canada it becomes a hard wheat, grading much higher than the Kansas product. The spring wheat is of a very high quality, grading number one; in other words it is the best wheat produced here. Yield ranges from 18 to 35 bushels of winter wheat and from 22 to 35 bushels of spring. In many of the best sections this year large tracts will average as high as 30 to 35 bushels to the acre. The price this year delivered at the elevator averaged from sixty to seventy cents. Winter wheat has been grown all over the spring wheat section, and the average of this will undoubtedly be increased.

This entire region seems to be the natural home of the oat plant. Oats grow freely, mature about the same time as the wheat, often a little earlier, and yield from 70 to 100 bushels to the acre. The Edmonton region seems to be the most favored section there, many farmers getting year after year 95 to 100 bushels to the acre. At Brandon, in southwestern Manitoba, the Government Experiment station has been growing oats for eight years. On one field they yielded during that time an average slightly under 97 bushels to the acre. The basket of oats is 34 pounds, or two pounds more than in the United States.

There are several reasons why small grains succeed so well in northwestern Canada. To begin with the soil is rich and fertile. The top soil is a chocolate loam ranging from eighteen to thirty-six inches in depth, with a clay sub-soil. The rainfall ranges from eighteen to twenty-six inches, coming at a time when needed by the crop, and is ample. The climate in almost perfect. In northern Canada during the summer time the days are exceedingly long and the sun warm. At Edmonton and Prince Albert during the middle of June, when the days are longest, it is light until almost eleven o'clock and daylight begins shortly after one; it is never very dark, thus giving a great amount of sunlight for forcing growth. The nights are cool, giving wheat, oats and other small grains an opportunity to "plump up" to become very heavy and of the very highest quality. The same is true of the other small grains of the farm. The big yields in Canada and the high quality of the crops are no surprise to a man familiar with agricultural requirements for these crops. Everything grown in the United States can be produced in Canada successfully, except corn. Silage corn yielding 20 tons to the acre was grown this year at the experiment station at Brandon. Corn does not mature seed here. Excellent fields of alfalfa and clover are already established and Prof. Thos. Shaw, the clover expert, states that he sees no reason why alfalfa and clover cannot be grown all over the Canadian Northwest. Small patches are found in every section. Clover growing

may not become general for some time, but it is bound to prevail later, when small grain growers raise stock and need something to keep up their land and feed their animals.

All root and garden crops grow luxuriantly. Potatoes of the highest quality are found in every village market. Rutabagas, turnips, carrots, parsnips, etc., are as fine as can be produced anywhere. Small fruits do well, particularly raspberries. Up to date apple culture has not been attempted, although at Portage La Prairie a number of bearing apple trees can be found in the village gardens.

Climate of this region varies, around Winnipeg and in Manitoba it is similar to that of North Dakota, being sometimes a little cooler; going north and west the atmosphere of the entire region is tempered by the Chinook winds, which prevail during the winter. These winds are warm air from the Japan current. This air comes over the low portion of the Rocky Mountains west and northwest of Edmonton, sinks down into the valley beyond, spreads over the entire country, and modifies the temperature, making it possible to begin seeding of wheat as early as March 1, in many places the snow is melted, and the dry grasses uncovered, so live stock can live in the open during the entire winter. The temperature is about the same as North Dakota, often milder, and the air being much drier, makes the cold weather much less noticeable. Men who have resided for many years in North Dakota, then moved to northwestern Canada state that they prefer the Canadian climate.

The whole of southern Canada is well supplied with railroads, being either on the main line or branches of the Canadian Pacific. Recently the northern portion was opened up by the completion to Edmonton of the new Canadian Northern Railroad.

Continued on Page Five.

## Farm Lands for Sale

All sections 55-55-27,  
N. E. 1-4 Section 9-54-23.  
R. E. 1-4 Section 3-54-23.  
And fractional N. E. 1-4 3-54-23.  
All west of 4th Meridian.  
Except mines and mining rights.  
Said section 3 is bounded on the north by the Saskatchewan River.  
Offers will also be received for said lands with mining rights.  
Applications for the purchase of land will be received by the undersigned, addressed either Moncton, N.B., or in care of Beck, Emery & Newell, Edmonton.

## Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the respiratory system in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

## SHILOH

This remedy should be in every household.

## NOTICE

## TO THE PUBLIC

The C.N.R. is Coming and so is winter, and will be here soon, so our advice is to go to LAEUE & PICARD and get your Winter Supply, where you can get it at the Right Price. They are well stocked with cheap, serviceable and up to date Winter wear, they have also many Bargains in Odd Lines to offer you . . . . .

## FUR COATS

away down in price this year. Be sure and give us a call and be convinced.

## DOES NOT LIKE IT

Mr. Editor, Edmonton Bulletin:  
I noticed in the Bulletin an article by Mr. R. Sheppard where he says that a farmers' meeting held in Strathcona decided that the time had arrived to form a strong association under the name of the Alberta Farmers' Association.

We have already the T. G. G. A. What is the matter with the Grain Growers? No good? Looks like it, as its members started the new concern. What is the matter with the American Society of Equity? Bad too? Why? Mr. Sheppard does not say. He thinks he has only to "decide that the time has arrived," frame a new constitution from the constitution of the A. S. of E., call a "monster meeting" and that the members of the A. S. of E. will all jump into the ring, and shout "Harrah for the Alberta Farmers' Association!" Too optimistic, Mr. Sheppard. It is poor work to destroy what is built already for the fun of building again, and build on a worse plan. Same as a sensible farmer would not trade a good horse raised in the States for a poor one simply because the latter was born in Strathcona, our fellows of the Society of Equity will not throw away their organization so sound, so lively and so rapidly spreading over the country, for that questionable scheme of the Strathcona Grain Growers.

Just tell me, what are you after? Amalgamation? We shall be glad to accept you in our midst and it will cost you only a few cents each to join the Society of Equity. It is the only possible way of amalgamation. Now, instead of working towards amalgamation you are going away in the wrong direction, as instead of two organizations, we shall have three.

Is the fire of patriotism burning too hot in your heart? And do you object to the name "American"? We are ready to change it and call our society "Canadian Society of Equity." We must keep the words "Society of Equity" because they express the aim and the object of our organization and shall be its common name all over the world.

Do you want independence for our Alberta affairs? A special constitution for Alberta giving us the most complete independence has been submitted to the members by the undersigned and is approved already by the headquarters as shown by this extract of a letter just received from the general secretary, Mr. Tubbs:

Mr. Nestor Noel,  
Riviere Qu'Appelle, Canada:

Dear Sir—

Also I have read your proposed constitution applicable to the Canadian provinces and I believe it is practically perfect as it is, and needs scarcely any revision.

M. W. TUBBS, Sec.

Do you want, as you say, profitable prices for farm products always? Controlled marketing is the only way to get them, and the Society of Equity then only farmers' organization specially built for that purpose; and co-operation with American farmers is necessary to attain that result.

Do you want a large and strong organization? The A. S. of E. is not three years old and has over 150,000 members, and with its wonderful power of organization is rapidly spreading all over the States and Canada.

Do you want a local union on the plan of the S. of E. It is just the thing to make farmers stick together and to manage your local affairs according to your own interests.

Do you want capable leaders, good and honest management? Join the S. of E. You will have as president, Mr. Everett, the founder of the Society, author of the "Third Power," Mr. J. P. Stolle, associate editor of Up-to-Dare Farming, and M. W. Tubbs, the general secretary. Ask any secretary of a local union who has conducted correspondence with the headquarters and he will tell you that the management there is simply perfect. Here in Alberta you will have officers elected by the delegates of the local unions and liable to be re-elected by them if not discharging their duties properly. You will always know what the society is doing, how your money is expended and you will have a say about it.

What else do you want? Just tell us know and perhaps we shall find some way to satisfy you.

When we joined the Society of Equity we knew what we were doing. We like its name, we like its object, we like its plan, we like its teachings, we like its management, we like its leaders and there is no reason why we should not be true and loyal to them.

NESTOR NOEL,  
Member of the Society of Equity.

## YOUNG MEN'S CLUB

The Young Men's Club of Grace church, organized recently, for the purpose of providing rooms where young men could spend pleasant and profitable evenings, is making splendid progress, and a good number are taking advantage of the entertain-

ment offered by the club. The rooms are in Grace Methodist church, corner of Kintostown avenue and Tenth street, and are open on Tuesday, Thursday and Saturday, from 8 to 10 p. m. and on Monday, Wednesday and Friday from 9 to 10 p. m. All leading newspapers of Canada are provided, and also plenty of magazines. There are all sorts of games, too, and an organ. Occasionally musical and social evenings are held. In fact, everything that can be provided for the comfort and entertainment of men is there. The membership fee is 50c and the month. All men are welcome, however, whether members or not, and are at liberty to come to the rooms any evening and enjoy themselves.

## WINNIPEG MARKETS

[From the Commercial]

Trade in Manitoba wheat in the Winnipeg Market has shown a good demand most of the time. Prices seem to be influenced more by the fluctuations in the American market than by anything else, although the large bulk of wheat must go for export. The lake freight situation is seriously against prices. Owing to delay in unloading at the other side vessels lose at least one trip out of three they could make, and freight rates are higher in consequence, the rate now being 5c per bushel as compared with 2c at the beginning of October. The increase in freight rates decreases the price of wheat at this end. Today's prices are: No. 1 hard, 81c; No. 1 northern, 77 3/4c; No. 2 northern, 75 1/2c; No. 3 northern, 73 1/2c; spot or delivery first half November. Futures on the option market closed, Nov. 77 5/8c; Dec. 75 5/8c; May, 81c. All prices are for in store Fort William and Fort Arthur.

Oats—No. 1 new oats, 32c; No. 2 oats, 31c per bushel in ear lots on track Winnipeg.

Barley—No. 3, 36c per bushel; No. 4, 32c per bushel, ear lots on track here.

## Our Sale and Want Column

Jasper Avenue. We offer for four days 2 lots facing south on Jasper avenue at 14th street. High and dry, cheap at \$3,000 will take \$2,100 for 100 foot frontage, with one half down balance in three six monthly payments.

## REVILLON BROTHERS, LIMITED.

### Western Canada

Continued from page two

which will be pushed through to the coast as rapidly as possible. The new Grand Trunk Pacific Railroad has been surveyed and work already started. Branch lines are being put in as rapidly as possible, and in two or three years all this vast territory will be as well supplied with railroads as southern Manitoba. Now the freight rates from Saskatchewan to the water are about the same as from Minn. North Dakota, to the water. The Canadian government and Canadian railroads are more liberal with the people than American railroads and the American government.

The local government is excellent. The country is divided into small political divisions and these are exceedingly well cared for. The mounted police are exceedingly efficient and none of the lawlessness which prevailed in the newly settled sections of the United States is possible in Canada. The settlers going into that country are of a very high order.

Very well-to-do farmers from the United States and from Eastern Canada have at once built substantial towns, comfortable homes, fully equipped their farms and in two years are raising crops which pay handsomely.

### IRRIGATION.

In southern Alberta, and in fact, from Calgary down, irrigation is becoming quite the thing. Large irrigation companies have been formed and the systems have already been established. At the extreme south in the Lethbridge district the Government has a big irrigation project well developed. For a number of years grain has been grown by artificial watering and during recent years sugar beets have been profitably produced. The sugar beet factory at Sterling has been in operation two years and is a very paying proposition. There is also some irrigation north of Calgary so that in Northwest Canada farmers who desire to grow by irrigation can find an abundant opportunity to do so, while those who are used to dry farming can select their lands from millions of acres of as good soil as the sun shines on.

### LIVE STOCK.

As stated above, all the southern part of Canada is an ideal range country.

Farther north stock do equally well, but wheat farmers claim that it is more profitable for them to grow grain consequently large numbers of animals are not kept. Eventually more ranchers will keep more and more animals and diversified farming will follow. The character of the stock throughout Canada is excellent, horses are of much better quality than those raised in the western parts of the United States. The Canadian government has encouraged the pure-bred live stock industry so that high-grade Clydesdales and shires are very numerous. There are also some very

good driving horses. The number of poor animals is very small, and, in general, the same is true of cattle. One sees fine herds of Angus, Shorthorns, Red Polls and some of the dairy breeds. Sheep are of high quality and include Shropshires, Leicesters, a few Lincolns, Ramboulllets, Merinos and some of the other pure breeds. The American stockman visiting that country is more than pleased with the character of the flocks and herds.

WHAT ANY FARMER CAN ACCOMPLISH

In the wheat region farming is exceedingly simple. Men buy raw lands begin plowing in the spring, running the plow about two inches deep. The best farmers do nothing with the land that year, but the following year they "back-set" it, disk, then sow 1 1/4 to 1 1/2 bushels of seed to the acre. This is usually cut during the later part of August and early September and the grain is sold direct to the elevators, of which there are sufficient to take care of the entire crop. This year the prices range from sixty to seventy cents, and as the yield was high the Canadian farmer is making big profit.

### AN EXAMPLE OF THE POSSIBILITIES OF THE REGION

Two years ago a couple of Chicago men bought a section near Davidson in Saskatchewan, paying \$7.50 an acre. This year they were offered \$12 cash for the raw land. A wheat farmer

from Northwest Iowa four years ago settled near Weyburn. He began farming and selling land on commission. He now owns 4,000 acres of land worth \$90,000 an acre and has \$20,000 in the bank. These examples are not an exception. Any farmer with good business ability and a knowledge of wheat growing can do well. The country is ideal for grain farming.

REPRESENTATIVES

ALBERTA GOVERNMENT  
GAZETTE

The first issue of the Alberta Government Gazette came out this week and contains much that is of interest in regard to the government of the new province, proclamations, government appointments, government notices, etc. First is a proclamation issued by Lieutenant-Governor Bulyea, announcing his appointment as Lieutenant-Governor of the Province of Alberta, on the twenty-four day of August, according to the provisions of the British North America Act, 1867, and also that "all and sundry officers of His Majesty in the said Province of Alberta continue in the exercise of their divers charge and respective functions and that the loyal subjects of His Majesty, and all others whom these presents may concern, take knowledge thereof and govern themselves accordingly."

Another proclamation announces that whereas the 9th day of November in this present year is the birthday of King Edward VII, and that it was deemed expedient that a later date should be fixed for the celebration thereof, Tuesday, 24th May, 1906, is fixed as the day for the celebration. Nevertheless, the usual salute in honor of the said birthday shall be fired at all military stations on the 9th November next.

Then come the Government appointments which are as follows:

## MINISTERIAL APPOINTMENTS

President Executive Council, Hon. Alexander Cameron Rutherford.  
Attorney-General, Hon. Charles Wilson Cross.  
Provincial Secretary, Hon. William Thomas Finlay.  
Provincial Treasurer, Hon. Alexander Cameron Rutherford.  
Minister Public Works, Hon. William Henry Cushing.  
Minister of Agriculture, Hon. William Thomas Finlay.  
Minister of Education, Hon. Alexander Cameron Rutherford.

## DEPARTMENTAL APPOINTMENTS

Deputy Minister Public Works, John Stocks, Calgary.  
Deputy Minister of Agriculture, George Harcourt, Edmonton.  
Acting Deputy Attorney-General and Law Clerk, J. K. McDonald, Edmonton.  
Clerk of the Executive Council, J. K. McDonald, Edmonton.  
Provincial Auditor, E. W. Barclay, Edmonton.  
Acting Deputy Treasurer, J. T. Murrie, Edmonton.  
Acting Deputy Provincial Secretary, George Harcourt, Edmonton.  
Director of Surveys, L. C. Charlesworth, Edmonton.  
Deputy Minister of Education, D. S. McKenzie, Edmonton.  
Deputy Provincial Secretary, H. W. Riley, Calgary.  
Acting Government Printer, J. E. Richards, Edmonton.  
Recorder of Brands, J. R. Honeyman, Regina, Sask.

## STOVES

will soon be needed, and no doubt they will go with a rush.

If you want a first class up to date Cast Iron Range that has been a winner for many years, we have the "Happy Thought." There is more of this Range in use than any other one Range in Canada, and no person has ever heard of a poor one. Then, if you want an all steel and malleable iron range, we have the "Monarch." You cannot break this range, and it has a mirror polished top which makes it a thing of beauty to look at as well as to use.

For any up to date line of heating stoves we think we have them all beat. It is not a case of you having to take what we have; our assortment justifies us in saying you can get just what you want from us.

We have from the smallest to the largest heating stoves in any style and for any purpose, to burn both coal and wood, or both. The prices are made to suit the pockets of all, and while we make only a very small profit on each stove we think the quantity we sell justifies us in saying that we can sell on so close a margin and still hold our own. We have everything in stove trimmings, and first class mechanics to deliver and put them up. Do not waste time in looking all over the city, but come direct to us.

Ross Bros. Ltd.

Direct Importers.

## RETROSPECTIVE

(By a Cricketer)

The cricker season just closed has proved very successful, partly on account of the cup competition which added considerable interest and which terminated in October in favor of this city. Next year it is hoped that a league will be formed and if so we are told that a handsome cup will be donated for the purpose by Mr. A. E. Lines of the Edmonton Brewing Co.

The Fort team has been unusually strong this summer and we only captured the cup from them after a keen fight, the teams in September having 7 points each to their favor. In the closing match we were assisted by the elder Hynes, Edmonton winning by 73 runs on the first innings. We hope that we may play the Fort more often next year when the advantages of the railway will give us greater opportunity to meet them. Two or three times this season our matches with them have not started at the time expected though the blame has generally existed with the Edmonton side. Our visits to the Fort are always most enjoyable; no efforts are ever spared on the part of the officers and members of the police force to give us a right royal time, their hospitality has frequently been referred to and we think Major Strickland for all that he has done to further the interests of cricket in these parts. Capt. Worsley has now moved to Edmonton and we shall look forward to having him on our side another season. His keenness in the game is also well known; though he has scored fewer runs than usual this summer.

The club arranged matches on most Saturdays since April 17, but was unable to get up any second XI games, though officers had been appointed. Perhaps next year all will have an increased opportunity to play against visiting teams, and we hope that any efforts which have been made this year, will be carried further in the years that are to come. We sorely need a ground of our own and until that is done we shall not be able to say that cricket is firmly established here. The outlay is well worth a considerable sacrifice. We are of course grateful to the exhibition authorities for allowing us the use of their field, though we can hardly expect to be able always to have this privilege granted to us.

May we venture also to hope that by next season the city will approve of an early closing afternoon, thereby giving all a greater opportunity for their pastimes and for healthy recreation. We believe that such a scheme would greatly benefit the community at large.

The club has possessed in all a membership roll of 102 this year, and we hope that next year there will be increased co-operation and that the games will begin on time. There is a good outfit to carry forward, and among other assets the club owns its own chairs. A small deficit of about \$15 has, however, still to be wiped out.

The batting prize was carried off by H. R. Mountfield who was closely pressed by the younger Hynes. His brother (H. B.) headed the bowling averages and won the bat which had been presented by Mr. Raymer. His presence has given a great strength to our side; his deceiving deliveries having proved very puzzling on every occasion. We regret that Messrs. Aldridge, Hen. P. Harkins and L. Howard were unable to play often. Those who played regularly met with fair success. The XI fielded brilliantly at times, especially at the Fort on June 10th; and on the home ground on August 26, when they dismissed Strathcona for the small score of 12. We should choose men more for their fielding. The runs lost by bad fielding are not easily atoned for. In this department Neild, Reeves, Stinson and Jones have frequently distinguished themselves, the last named having also bowled with some success. Charlie Wilson and some of the juniors show an aptitude for cricket which will, we hope be developed next season. In the last match of the year Lemastre and Mountfield each made a large score.

The Strathcona club was rather weak, though possessing in Judge and Rimington two good all round men. But in combination with Edmonton the team did good service, lowering both the colors of the Regina Police club on August 29, by 34 runs and of the Bittern Lake XI whom they overcame a few weeks later. The former victory by the combined Edmonton and Strathcona clubs was exceedingly popular, a large number of spectators having collected on that day to witness the result. Four of the Strathcona players joined our club, participated in some of the scheduled games; and in H. F. Sandeman they still possess an energetic secretary. Valuable assistance has been given to the club by the interest shown on the part of the ladies, we should specially mention Mrs. MacNaughton, Mrs. Mannell and Mrs. Day. Our gratitude is due to those who scored so faithfully for us during the season, and to Mr. C. Lucas for his services as umpire. Mr. Grisenthwaite and others have helped us and we hope that an increasing interest will cause cricket to go ahead in this province in the future.

The  
Tag

You don't have to be an expert on knitting, yarns and dyes to buy stockings that will prove perfectly satisfactory.

"Dominion Brand"  
STOCKINGS.

bear this label. It is our guarantee and your protection. You need give no thought to quality when you see the Burritt tag. It stands for finest yarns—fast dyes—warmth—comfort—perfect fit.

If any pair of "Dominion Brand" Hosiery should prove unsatisfactory, this tag means a new pair or money back.
